Use of EUR

- Payments to projects from MA only in Euro
- Amounts claimed in the financial reports have to be presented in currency used in accounting records and converted into Euro
- Use the official InforEuro **monthly** exchange rate published by EC
 - http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/index_en.cfm
- Exchange rate of the month during which the expense **was recorded in the accounting records**, not the month when the expense was incurred or paid
- Exchange rate with **all decimals** (e.g. SEK/EUR 0,10391).

Simplified method for reporting (SE,FI,RU)

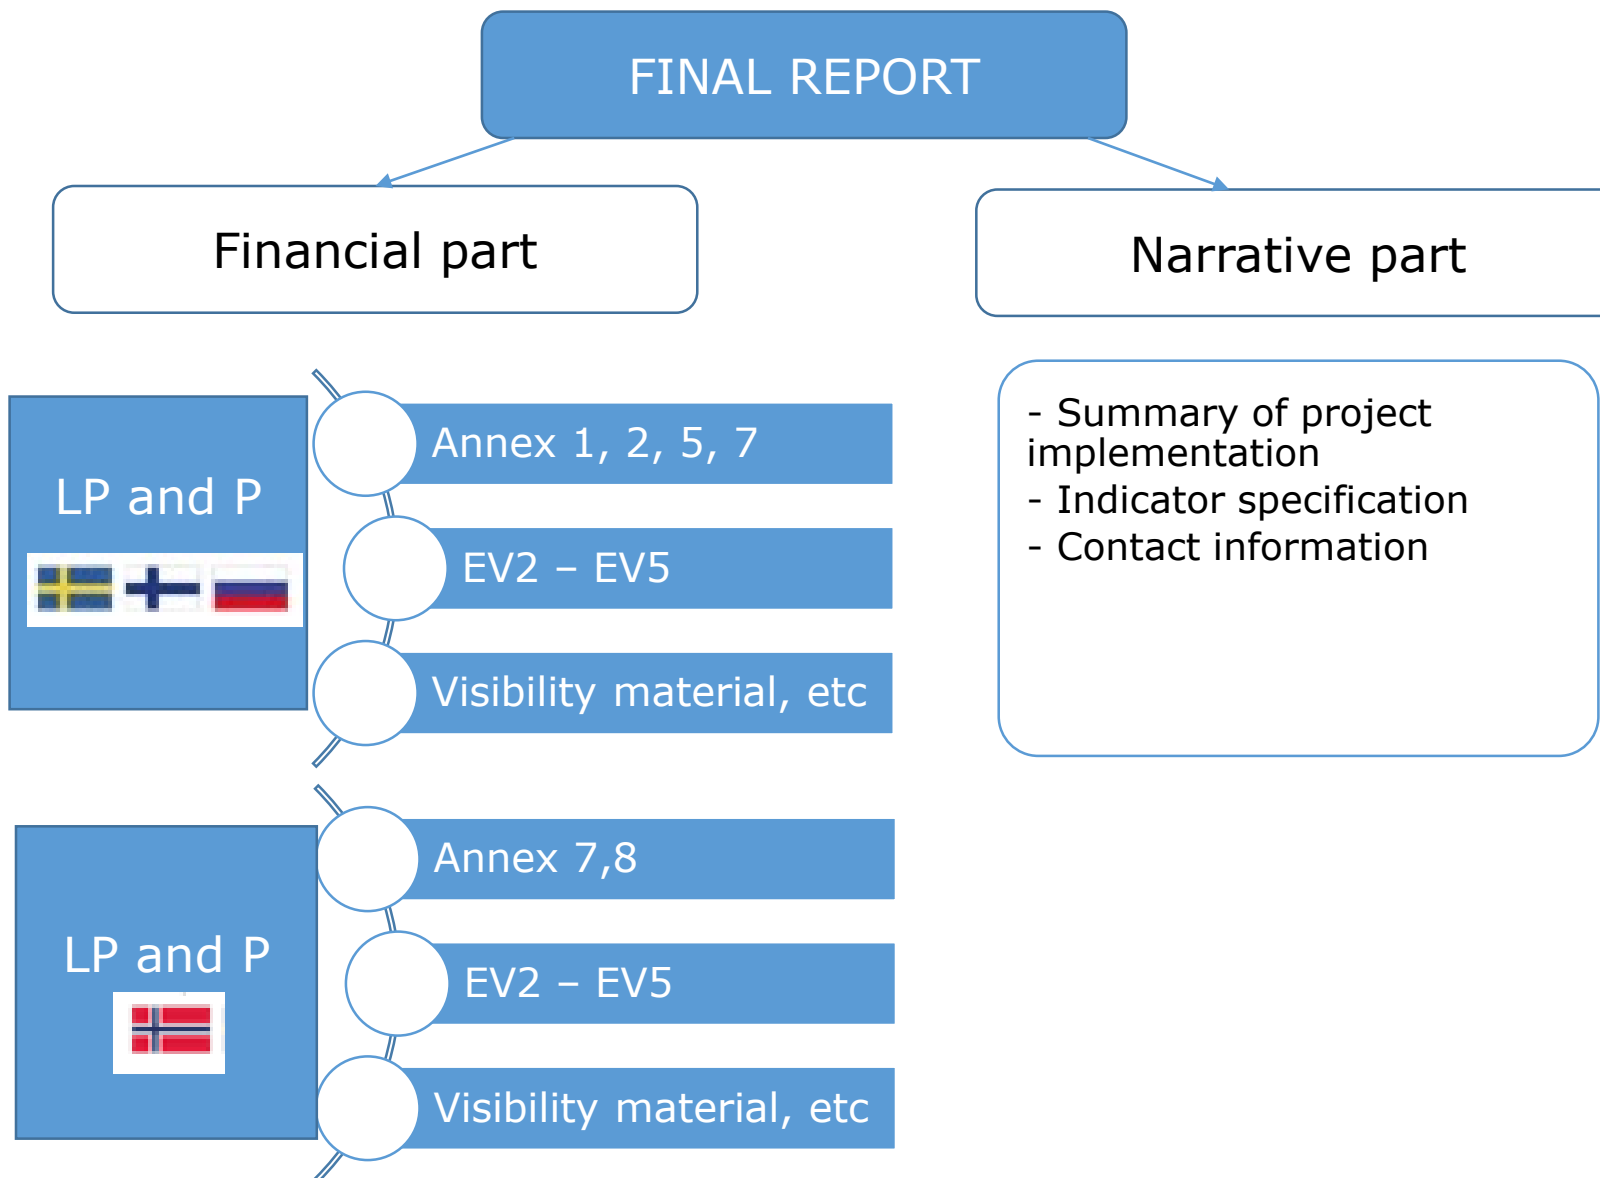

- Maintain project accounting of their own
- Invoice all project-related costs from a reporting partner
- Annex to the invoice the copies of the original receipts with all supporting documents and payment orders and fill in needed annexes of financial report
- If needed the translations of the invoices and supporting documents shall be made
- **Expenditure verification is not needed**

- Maintain project accounting of their own costs and the costs invoiced by the invoicing partners
- Check the receipts with the supporting documents and annexes of the financial report of invoicing partners and pay against the invoice to them
- Shall make sure that costs in the invoices provided by invoicing partner are in accordance with the project budget
- Can also pay straight from its account the costs of the invoicing partner
- Reporting partners report these costs in their financial report to Managing Authority
- The auditor verifies the costs from the accounting records of the reporting partner
